

Attendee Pack for the 2nd Regional GEOS-Chem Europe User's Meeting (GCE2) at University College London (UCL) on 14-16 August 2023

Contents:

- Campus and Venue Directions
- Agenda
- Speaker instructions (includes same-day poster printing option and where/when to upload slides)
- Lunch Options
- Tourist Attractions
- List of attendees

Directions to UCL Campus

Public transport directions to train stations and bus stops within walking distance of UCL campus: <https://www.ucl.ac.uk/maps/public-transport/>.

Directions to GCE2 venues from main UCL campus entrance on Gower Street:

Red arrows: Day 1 venue (North-West Wing Room G22)

Cyan arrows: Days 2-3 venue (Portico Building, Jeremy Bentham Room)

For G22, enter the main UCL campus gates on Gower Street opposite the impressive looking redbrick Cruciform Building. As you enter, the building on the left is the North-West Wing. The main building entrance is not accessible to the public, as it requires UCL card access. To access the GCE2 venue, turn left to walk along the outside of the North-West Wing building until you reach a glass door to enter the building on your left. Enter here and turn right, following signs to room G22.

For the Jeremy Bentham Room (JBR), head straight through the main UCL campus gates to reach the bottom of the Portico (Greek column style) building stairs, turn left to enter the building at the entrance indicated, turn right to reach the dome passing the main UCL library entrance on your left, then turn left to head up the stairs to the Jeremy Bentham Room. Alternately, turn right at the bottom of the stairs to reach the JBR in the opposite direction.

If you need help finding anything, there are lots of friendly security personnel to help you.

GCE2 Agenda

Time allocation of talks:

GEOS-Chem overview talks: 20 min (15-16 min talk; 4-5 min Q&A)

Keynote talks: 30 min (25 min talk, 5 min Q&A)

Science talks: 15 min (12 min talk, 3 min Q&A)

Poster summaries: 1 min

Day 1, Monday 14 August

Location: Room G22, North-West Wing building

Day 1 Afternoon Session 1: Meeting and Model Overview

Session Chair: Karn Vohra, UCL

Slides loaded by Eleanor Gershenson-Smith

- 13:30-14:00 Registration
- 14:00-14:20 Welcome and meeting overview, Eloise Marais, UCL
- 14:20-14:40 GEOS-Chem Model Overview, Randall Martin, WUSTL
- 14:40-15:00 GEOS-Chem Technical Overview, Melissa Sulprizio, Harvard
- 15:00-15:20 GCHP Demonstration, Killian Murphy, York

15:20-15:50 Tea/Coffee Break

Day 1 Afternoon Session 2: Emissions

Session Chair: Matthew Rowlinson, York

Slides loaded by Eleanor Gershenson-Smith

- 15:50-16:10 European Emissions for GEOS-Chem, Mat Evans, York
- 16:10-16:25 Assessing HTAP NO_x Emissions in Cities in South and Southeast Asia using TROPOMI, Gongda Lu, UCL
- 16:25-16:40 Implementing an improved parameterisation for inorganic iodine emissions in GEOS-Chem, Ryan Pound, York
- 16:40-16:55 An inverse modelling framework to estimate the GHG emissions for the UK, Alex Kurganskiy, Edinburgh.
- 16:55 Adjourn for the day

Day 2, Tuesday 15 August

Location: Jeremy Bentham Room, Portico building

Day 2 Morning Session 1: Models to Motivate Action

08:30-09:00 Tea/Coffee available

Session Chair: Alex Kurganskiy, Edinburgh

Slides loaded by Gongda Lu

- 9:00-9:30 **KEYNOTE:** The use of atmospheric chemistry models in air pollution activism, Jamie Kelly, Centre for Research on Energy and Clean Air (CREA)
- 9:30-9:45 Investigating climate co-benefits using GEOS-Chem adjoint sensitivities, Omar Nawaz, GWU

- 09:45-10:00 Early deaths, asthma exacerbation and cancer risks linked to air pollution from each major oil and gas lifecycle stage in the US, Karn Vohra, UCL
- 10:00-10:15 Evaluation of the atmospheric impact of supersonic emissions from the SCENIC project on a 2050 atmosphere, Jurriaan van 't Hoff, TU Delft
- 10:15-10:30 Impacts of megaconstellation satellite launches and end-of-life satellite disposal on stratospheric ozone and climate, Connor Barker, UCL
- 10:30-10:40 Poster summaries (1 min each):
- Modeling biomass burning impacts on air quality in Canada, Samaneh Ashraf, UdeM
 - Spatio-temporal variability of atmospheric mercury over India by using ground-based observations and GEOS-Chem model simulations, M.Chakradhar Reddy, IIT-Madras
 - Using GEOS-Chem for retrieval of vertical profiles of atmospheric composition over Central London, Eleanor Gershenson-Smith, UCL
 - Exploring the impact of biogenic and pyrogenic emissions in South America with GEOS-Chem and satellite data, Susie Shihan Sun, Edinburgh

10:40-11:10 Tea/Coffee break [with GCST Helpdesk]

Day 2 Morning Session 2: Particles Great and Small

Session Chair: Hansen Cao, York

Slides loaded by Nana Wei

- 11:10-11:30 **KEYNOTE:** Plastic aerosols - what do we know?, Stephanie Wright, Imperial College London
- 11:30-11:45 Advances in Simulating the Global Spatial Heterogeneity of Air Quality using GCHP and Its Implications for the Relation of AOD with PM_{2.5}, Dandan Zhang, WUSTL
- 11:45-12:05 Porting GEOS-Chem Chemistry to External Models, Lizzie Lundgren, Harvard
- 12:05-12:15 Poster summaries (1 min each):
- Exploring marine boundary layer halogen chemistry using GEOS-Chem, Amy Lees, York
 - Global simulation of tropospheric halogen multiphase chemistry, Hansen Cao, York
 - Development of versatile Python software to retrieve tropospheric vertical profiles of NO₂ and ozone from satellite observations, Gongda Lu, UCL
 - The impact of diurnal variation in African wildfires on atmospheric chemistry, Haolin Wang, Sun Yat-sen U.
 - Climate effect of biomass burning aerosol from key biomass burning regions, Shuaiyi Shi, Edinburgh

12:15-13:50: Lunch break.

Day 2 Afternoon Session 1: Modelling to Inform Environmental Policy

Session Chair: Connor Barker, UCL

Slides loaded by Gongda Lu

- 13:50-14:10 **KEYNOTE:** How the UK Department for the Environment, Food and Rural Affairs (DEFRA) uses air quality models to inform policy, Alison Davies, DEFRA
- 14:20-14:35 Emerging capabilities for GEOS-Chem Meteorological datasets, Saptarshi Sinha, WUSTL
- 14:35-14:50 Sensitivity of Air Quality (AQ) in Eastern Canada to Transboundary Pollution and Meteorology: Understanding Potential Climate-AQ Feedbacks, Robin Stevens, UdeM.
- 14:50-15:15 Present-day and next mid-century estimates of global aviation impacts on air quality, Flávio, TU Delft
- 15:05-15:20 Effects of model resolution on simulated air quality impacts from aviation, Seb Eastham, MIT

15:20-15:35 UK public health and ecosystem benefits from adopting technically feasible emissions controls throughout Europe, Eloise Marais, UCL

Day 2 Afternoon Session 2: Posters and Networking

15:35-18:00 Poster session and networking with drinks and snacks

Day 3, Wednesday 16 August

Location: Jeremy Bentham Room, Portico building

Day 3 Morning Session 1: Tropospheric composition (mostly ozone) part 1

08:30-09:00 Tea/Coffee available

Session Chair: Susie Shihan Sun, Edinburgh

Slides loaded by Connor Barker

- 9:00-9:30 **KEYNOTE:** The role of atmospheric non-linearities in understanding aviation emissions' impacts, Irene Dedoussi, TU Delft
- 9:30-9:45 Why is tropospheric ozone around 40 ppbv?, Mat Evans, York
- 9:45-10:00 Why is background ozone over East Asia so high?, Nadia Kathryn Colombi, Harvard
- 10:00-10:15 Evaluation of GEOS-Chem vertical profiles of nitrogen dioxide (NO₂) and ozone (O₃) using cloud-sliced TROPOMI columns, Bex Horner, UCL
- 10:15-10:35 Meeting photo

10:35-11:00 Tea/Coffee break [with GCST Helpdesk]

Day 3 Morning Session 2: Tropospheric composition (mostly ozone) part 2

Session Chair: Gongda Lu, UCL

Slides loaded by Connor Barker

- 11:00-11:15 The rise and rise of atmospheric methane: an unfolding story about hotspots and wet spots, Paul Palmer, Edinburgh
- 11:15-11:30 Implementation of an observationally-constrained nitrate photolysis parameterisation and the impact on tropospheric ozone, Mathew Rowlinson, York
- 11:30-11:45 Reactive nitrogen and ozone in the global upper troposphere: Insights from historic DC8 aircraft campaigns and GEOS-Chem, Nana Wei, UCL
- 11:45-11:55 Closing remarks, Eloise Marais, UCL
- 11:55 Meeting Adjourns

Presenter Instructions

Talk durations and suggested number of slides:

GEOS-Chem overview talks: 15-16 min (14-16 content slides))

Keynote talks: 25 min (20-25 content slides)

Science talks: 12 min (10-14 content slides)

Poster summaries: 1 min (1 slide)

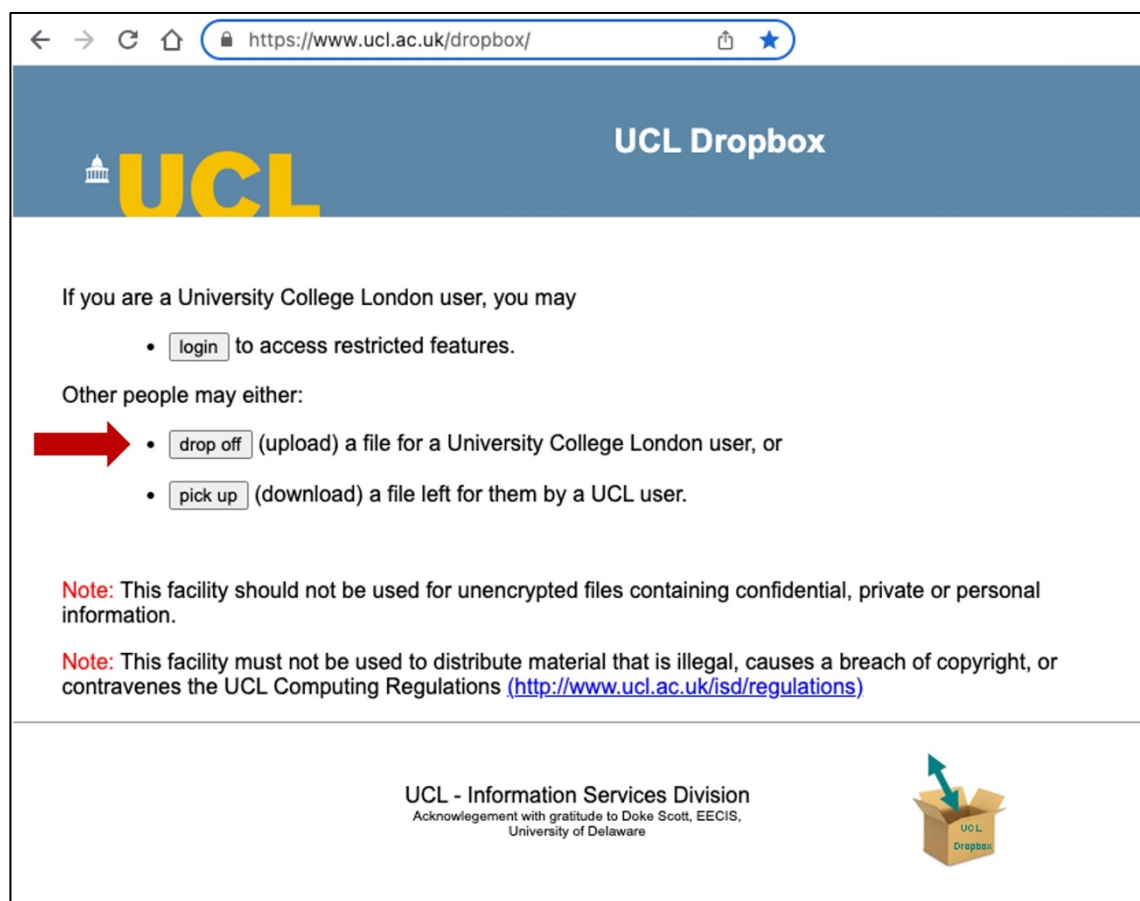

Poster printing:

Same-day A0 printing available at Nevex Printing (<https://nevex.co.uk/academic-posters-printing/>) located at St Pancras / King's Cross Station about 15 min walk from UCL. Posters can be displayed as portrait or landscape.

Slide uploads:

Upload slides to the UCL Dropbox online application (<https://www.ucl.ac.uk/dropbox/>) at least 24 hours prior to your talk.

Click on the Dropbox link, then click on the “drop off” link:

This will take you to an electronic form shown below. Fill in your name, you organization name and email. Fill in receiver name (Eloise Marais) and email address (e.marais@ucl.ac.uk). Upload file. The Dropbox file size limit is very large.

Please only upload Powerpoint format slides. Not PDF. Please use Widescreen slide size (16:9 aspect ratio) to prepare your slides.

For poster summaries, please only prepare one slide. Additional slides will be deleted.

UCL Dropbox

This web page will allow you to upload a file for a University College London user. They will receive an automated email with the information you enter below and instructions for downloading the file. Your IP address will be logged and sent to the recipient.

Note: The file will be deleted after 10 days.

Note: This facility should not be used for unencrypted files containing confidential, private or personal information.

Note: This facility must not be used to distribute material that is illegal, causes a breach of copyright, or contravenes the UCL Computing Regulations (<http://www.ucl.ac.uk/isd/regulations>)

From:

→ Your Name:

Ada Lovelace (required)

→ Your Organization:

Mary Somerville University

→ Your eMail:

a.lovelace@msu.ac.uk (required)

To:

→ Their Name:

Eloise Marais

→ Their UCL eMail:

e.marais@ucl.ac.uk (required, and must be a valid UCL email address, e.g. tony.stark@ucl.ac.uk or ucyzxxx@ucl.ac.uk)

Additional recipients' e-mail addresses. Separate with commas, e.g. j.bentham@ucl.ac.uk,i.m.blogs@pz.harvard.edu,a.nonymous@hertford.ox.ac.uk.

No spaces. No semi-colons. No single quotes. No double quotes. No angle brackets.

Extra addresses:

(optional)

267G of free space in total is currently available for uploads by all users.

Lunch Options On and Near Campus:

Grab and Go:

** options on campus*

Tottenham Court Rd food market in front of the American International Church

Market/street food stalls in front of Euston Church

*Fold Pizza Shop: <https://www.foodatucl.com/fold-pizza-shop/>

*Print Room Café: <https://studentsunionucl.org/eat-drink-shop/cafes/print-room-cafe>

Garden Kiosk in Gordon's Square (city park)

Cabmen's Shelter in Russell Square (city park)

*George Farha Café: <https://studentsunionucl.org/eat-drink-shop/cafes/george-farha-cafe>

*Gordon's Café: <https://studentsunionucl.org/eat-drink-shop/cafes/gordons-cafe>

Outdoor spots to eat grab & go lunch if weather permits:

UCL main quad

UCL Japanese garden

Russell Square

Gordon Square

Sit down options with efficient service:

Roti King: <https://www.rotiking.com/>

Franco Manca (chain with store in Tottenham Court Rd)

Noodle & Snack (145 Cleveland St)

Honey and Spice: <https://honeyandco.co.uk/places/honey-spice/>

Gail's Bakery (chain with store in Bloomsbury)

Dillons Coffee in the multistorey Waterstone's book store

Tourist Attractions On and Near Campus:

The British Museum: <https://www.britishmuseum.org/>

Wellcome Collection: <https://wellcomecollection.org/>

UCL Petrie Museum of Egyptian Archaeology: <https://www.ucl.ac.uk/culture/petrie-museum>

Charles Dickens Museum: <https://dickensmuseum.com/>

Foundling Museum: <https://foundlingmuseum.org.uk/>

The Crypt Gallery: <http://cryptgallery.org/>

List of Attendees:

53 attendees (41 in-person, 12 remote) from 25 institutions and 11 countries

In person Attendees

Name	Institution
Adedayo Adedeji	King's College London, UK
Samaneh Ashraf	University of Montreal, Canada
Connor Barker	University College London, UK
Hansen Cao	University of York, UK
Nadia Kathryn Colombi	Harvard University, USA
Alison Davies	UK DEFRA
Irene Dedoussi	TU Delft, Netherlands
Flávio Domingos de Azevedo Quadros	TU Delft, Netherlands
Seb Eastham	MIT, USA
Mat Evans	University of York, UK
Liang Feng	University of Edinburgh, UK
Eleanor Gershenson-Smith	University College London, UK
Jayashree Ghosh	University of East Anglia
Bex Horner	University College London, UK
Jamie Kelly	Centre for Research on Energy and Clean Air
Alex Kurganskiy	University of Edinburgh, UK
Amy Lees	University of York, UK
Gongda Lu	University College London, UK
Lizzie Lundgren	Harvard University, USA
Eloise Marais	University College London, UK
Randall Martin	WUSL, USA
Killian Murphy	University of York, UK
M. Omar Nawaz	George Washington University, USA
Paul Palmer	University of Edinburgh, UK
Ryan Pound	University of York, UK
M.Chakradhar Reddy	IIT – Madras, India
David Rowley	University College London, UK
Matthew Rowlinson	University of York, UK
Shuaiyi Shi	University of Edinburgh, UK
Saptarshi Sinha	WUSTL, USA
Robin Stevens	University of Montreal, Canada
Melissa Sulprizio	Harvard University, USA
Parv Suntharalingam	University of East Anglia, UK
Susie Shihan Sun	University of Edinburgh, UK
Hiroshi Tanimoto	NIES, Japan
Jurriaan van 't Hoff	TU Delft, Netherlands
Karn Vohra	University College London, UK

Haolin Wang
Nana Wei
Stephanie Wright
Dandan Zhang

Sun Yat-sen University
University College London, UK
Imperial College London, UK
WUSTL

Remote Attendees

Name	Institution
Salah Eddine	Mohammed V University, Morocco
Luke Fakes	University of York, UK
Ari Feinberg	MIT, USA
Matthew Loman	University of Rochester, USA
Abril Lunar	TAMU Corpus Christi, USA
Sherry Luo	University of Lille, France
Pradhi Rajeev	IIT – Patna, India
Saroj Kumar Sahu	Utkal University, India
Puneet Kumar Verma	Physical Research Laboratory, India
Bob Yantosca	Harvard University, USA
Xueying Yu	Stanford University, USA
Minjie Zheng	ETH, Switzerland
